Title: Nautica will also be cheaper?

Journalist: Krzysztof Woch

Parkiet / Nautica will also be cheaper?

According to the journalist, after yesterday's article, which contained information on the expected better financial results of Ronson in 2Q2009, the developer's share price increased 5.8% during the session, to PLN 1.10 per share. Additionally the journalist corrected himself on the newly negotiated terms with the general contractor Hochtief at Ronson's project Gemini I (not Nautica, as reported yesterday). Ronson will not pay Hochtief PLN 65.4 million, as negotiated earlier, but PLN 56.9 million. According to Parkiet's sources, Ronson would like to repeat this "success" also at its project Nautica, where the contractor is Unimax.
