Directors' Report**General****Introduction**

Ronson Europe N.V. (hereinafter "the Company"), a Dutch public company with its registered office located in Rotterdam, the Netherlands, was incorporated on 18 June 2007. The Company through its subsidiaries (hereinafter "the Group"), is active in the development and sale of residential units, primarily apartments, in multi-family residential real-estate projects and single family or semi-detached housing to individual customers in Poland.

The shares of the Company are traded on the Warsaw Stock Exchange since 5 November 2007. As at 30 September 2010, 64.2% of the outstanding shares are held by I.T.R. Dori B.V. (hereinafter "ITR Dori"), whereas 15.3% of the outstanding shares are held by GE Real Estate CE Residential B.V. (hereinafter "GE Real Estate") with the remaining 20.5% of the outstanding shares being held by other investors, including Amplico OFE and ING OFE whereby each party is holding an interest of between 5% and 10% of the outstanding shares. For major shareholders of the Company reference is made to page 19. On 8 November 2010, the market price was PLN 1.66 per share giving the Company a market capitalization of PLN 452.1 million.

Company overview

The Company is an experienced, fast-growing and dynamic residential real estate developer expanding its geographic reach to major metropolitan areas across Poland. Leveraging upon its large portfolio of secured sites, the Company believes it is well positioned to become a leading residential development company throughout Poland.

The Company aims to maximize value for its shareholders by a selective geographical expansion in Poland as well as the creation of a portfolio of real estate development properties. Management believes the Company has positioned itself strongly to navigate the currently challenging economic environment. On the one hand, the Polish economy appears to have stabilized and is improving, which potentially bodes well for the Company's prospects. On the other hand, the debt crisis playing out in Europe and its destabilizing impact on the Euro may continue to have a negative impact on the Polish economy, and the Company's overall prospects. As a result, the Company continues to adhere to a development strategy that allows it quickly to adjust to these uncertain conditions by spreading risks through closely monitoring and potentially modifying the number of projects and their quality and sizes as well as through considering various other geographical locations to commence development.

Until 30 September 2010, the Group has completed construction of thirteen projects comprising 1,736 units with a total area of 125,300 m², having delivered to clients 1,556 units with a total area of 108,000 m². 170 units in these completed projects, with a total area of 16,300 m², are expected to be delivered to customers during the remainder of 2010 and 2011 (see page 14).

Directors' report

Company overview (cont'd)

As of the date of this Interim Financial Report, the Group is in the midst of developing eight projects comprising a total of 471 units, with a total area of 38,500 m². 142 units in these projects, with a total area of 16,600 m², are expected to be completed during the remainder of 2010 and 2011.

In addition, the Group has a pipeline of 21 projects in different stages of preparation, comprising approximately 4,800 residential units with a total area of approximately 357,600 m² for future development in Warsaw, Poznań, Wrocław and Szczecin. The Company plans to commence two more projects during the remainder of 2010.

Despite the challenging market conditions, the Company's sales results have been gradually improving since the fourth quarter of 2008, which was the most difficult period for the Company to date - as well as for the entire market. During 2009, the Company sold 263 units with the total value PLN 142.3 million, while in the first nine months of 2010, the net sales amounted to 214 units with the total value PLN 140.3 million, which management believes was a strong result given the market conditions and the size of the Company's offerings (that increased only during the third quarter of 2010). As the number of units offered by the Company diminished due to progressing sales, the Company expects to benefit from overall improving markets whereby the Company has already opened six new projects in the first nine months of 2010 and plans to initiate two more new projects during the last quarter of 2010. However, in order to minimize market risk, management is scaling down these new projects into relatively smaller stages.

Market overview

The Polish economy has proven to be relatively strong even in the recent turbulent times, which in combination with the general paucity of dwellings in Poland (in comparison to all other European countries) creates, what management believes, solid long term prospects for further development of the residential real estate market in spite of the recent downturn. In the opinion of management, the Company is well positioned to adapt to changing market conditions and is preparing new projects for development, which will be distinguished in the market by their location, quality and attractive pricing. Positive sales results of the Company during the whole of 2009 and during the first nine months of 2010 seem to confirm that the Company has indeed successfully adapted to the changing market environment.

In addition, to further minimize market risk, the Company is now taking a very selective approach when initiating new projects. In the preparation phase of all projects, great emphasis is put on splitting the projects into smaller parts.

Management is also cognizant of the tightened credit markets. Accordingly, when planning its newest projects, the Company has prepared for increased costs of debt financing as well as for more demanding debt facility structures that are being imposed by the lending banks.

Directors' report**Business highlights during the nine months ended 30 September 2010****A. Projects completed**

Revenue

Total revenue increased by PLN 95.0 million (121.9%) from PLN 77.9 million during the nine months ended 30 September 2009 to PLN 172.9 million during the nine months ended 30 September 2010, which increase is primarily explained by an increase in apartments delivered to the customers in terms of area size (in m²), offset in part by a decrease in average selling price per m².

Cost of sales

Cost of sales increased by PLN 77.0 million (152.8%) from PLN 50.3 million during the nine months ended 30 September 2009 to PLN 127.3 million during the nine months ended 30 September 2010, which is primarily explained by an increase both in number and in total area size (in m²) of apartments delivered to the customers as well as by a write-down adjustment on projects under construction (Gardenia project).

Directors' report

Overview of results (cont'd)***Selling and marketing expenses***

Selling and marketing expenses increased by PLN 3.0 million (135.3%) from PLN 2.2 million for the nine months ended 30 September 2009 to PLN 5.2 million for the nine months ended 30 September 2010 which is primarily explained by increase in the number of projects which the Group is developing and planning to commence.

Administrative expenses

Administrative expenses increased by PLN 1.6 million (16.2%) from PLN 10.0 million for the nine months ended 30 September 2009 to PLN 11.6 million for the nine months ended 30 September 2010 which is primarily explained by increase in the Management Board bonus that, calculated as a proportion of the profit before tax, increased by 77.5%, as well as increase in the tax and legal advisory services due to the implemented organisational restructuring of the Group.

Other expenses

Other expenses increased by PLN 3.2 million (434.4%) from PLN 0.7 million for the nine months ended 30 September 2009 to PLN 3.9 million for the nine months ended 30 September 2010 which is primarily explained by one-time event related to the write-down expense in connection with the abandoned Aurora project amounting to PLN 2.5 million. For additional information see "Additional information to the report" (page 20).

Other income

Other income decreased by PLN 0.8 million (60.1%) from PLN 1.4 million for the nine months ended 30 September 2009 to PLN 0.6 million for the nine months ended 30 September 2010, which is primarily explained by a decrease in the total revenues from contractual penalties and compensation.

Operating profit

As a result of the factors described above, the Company's result from operating activities increased by PLN 9.4 million from an operating profit of PLN 16.1 million for the nine months ended 30 September 2009 to an operating profit of PLN 25.5 million for the nine months ended 30 September 2010.

Directors' report**Overview of results (cont'd)*****Net finance income/(expense)***

Finance income/(expense) is accrued and capitalized as part of the cost price of inventory to the extent this is directly attributable to the construction of residential units. Unallocated finance income/(expense) not capitalized is recognized in the statement of comprehensive income.

The table below shows the finance income/(expense) before capitalization into inventories and the total finance income/(expenses) capitalized into inventories:

	For the nine months ended 30 September 2010		
	PLN (thousands)		
	<u>Total amount</u>	<u>Amount capitalized</u>	<u>Recognized as profit or loss</u>
Finance income	1,565	(56)	1,509
Finance expense	(11,584)	11,356	(228)
Net finance (expense)/income	<u>(10,019)</u>	<u>11,300</u>	<u>1,281</u>

	For the nine months ended 30 September 2009		
	PLN (thousands)		
	<u>Total amount</u>	<u>Amount capitalized</u>	<u>Recognized as profit or loss</u>
Finance income	384	-	384
Finance expense	(14,719)	13,291	(1,428)
Net finance (expense)/income	<u>(14,335)</u>	<u>13,291</u>	<u>(1,044)</u>

Net finance expenses before capitalization decreased by PLN 4.3 million (30.1%) from PLN 14.3 million during the nine months ended 30 September 2009 to PLN 10.0 million during the nine months ended 30 September 2010, which is a result of a decrease in finance expense due to the decrease in loans received from banks and a decrease of interest rates, as well as a increase in finance income due to increase in the total amount of short-term deposits kept by the Company on bank accounts.

Income taxes expense

The effective tax rate for the nine months ended 30 September 2010 is 5.4% in comparison 18.4% for the nine months ended 30 September 2009, the decrease in the effective tax rate is due to recognition of the tax assets created concurrently with to organisational restructuring of the Group.

Directors' report**Overview of selected details from the Interim Consolidated Statement of Financial Position**

The following table presents selected details from the Interim Consolidated Statement of Financial Position in which material changes had occurred.

	As at 30 September 2010	As at 31 December 2009
	PLN (thousands)	
Inventory	561,060	646,253
Advances received	69,385	73,367
Loans and borrowings	179,080	249,007

Inventory

The balance of inventory is PLN 561.1 million as of 30 September 2010 comparing to a balance of PLN 646.3 million as of 31 December 2009. The decrease is primarily a result of cost of sales recognized for a total amount of PLN 126.8 million which is mitigated by the Group's investments associated with direct construction costs for a total amount of PLN 29.7 million and a net finance expense capitalized for a total amount of PLN 11.3 million.

Advances received

The balance of advances received is PLN 69.4 million as of 30 September 2010 comparing to a balance of PLN 73.4 million as of 31 December 2009. The decrease is a result of advances received from clients regarding sales of residential units for a total amount PLN 168.9 million. The increase is mitigated by revenue recognized from sale of residential units for a total amount of PLN 172.9 million.

Loans and borrowings

The total of short-term and long-term loans and borrowings is PLN 179.1 million as of 30 September 2010 compares to a balance of PLN 249.0 million as of 31 December 2009. The decrease is primarily the effect of repayments of the bank loans taken by the Group for the purpose of financing construction costs of the projects and acquisition of lands for a total amount of PLN 69.0 million and repayments of accrued interest from shareholders loans amounting to PLN 7.5 million. Of the mentioned PLN 179.1 million, an amount of PLN 96.9 million comprises facilities with maturity dates not later than 30 September 2011.

The maturity structure of the loans and borrowings reflects the Company's activities in the past 3 to 4 years to partially refinance some of its land acquisitions with short-term and medium-term banking facilities. The Company intends to repay part of its short-term loans and borrowings.

Directors' report

Overview of selected details from the Interim Consolidated Statement of Financial Position (cont'd)***Loans and borrowings (cont'd)***

The loans and borrowings can be split into three categories: 1) loans from shareholders, 2) banking loans related to residential projects which are completed or under construction, and 3) banking loans granted for financing of land purchases.

The loans from shareholders (related parties) as of 30 September 2010 amounted to PLN 55.2 million comprising a loan principal amount of PLN 52.9 million plus accrued interest of PLN 2.3 million. The maturity date of these loans is October 2011.

The bank loans supporting completed projects or projects under construction are tailored to the pace of construction works and sales. As at the end of 30 September 2010, the Company's debt in this category amounted to nil.

The bank loans granted to finance the land purchases amounted as of 30 September 2010 (loan principal) to PLN 123.9 million in total. Despite the fact that the maturity of the majority of the loans used to finance the land parcels is short-term (PLN 94.6 million), i.e. the majority of these loans are maturing before the end of September 2011, as long as the banks are enjoying at least a 50% loan to value ratio and the Company is servicing loans according to the loan agreements, the Company's management believes that the Company will be able to extend the maturity of all of its short-term loans in this category.

Directors' report**Overview of cash flow results**

The Group funds its day-to-day operations principally from cash flows provided by its operating activities, loans and borrowings under its loan facilities.

The following table sets forth the cash flows on a consolidated basis:

	For the nine months ended	
	30 September	
	2010	2009
	PLN (thousands)	
Cash flows from/(used in) operating activities	<u>90,542</u>	<u>(14,345)</u>
Cash flows from/(used in) investing activities	<u>(1,345)</u>	<u>(1,642)</u>
Cash flows from/(used in) financing activities	<u>(65,943)</u>	<u>1,847</u>

The net cash flow from operating activities amounted to PLN 90.5 million for the nine months ended 30 September 2010 which compares to a net cash flow used in operating activities amounting to PLN 14.3 million during the nine months ended 30 September 2009. The increase is principally due to a decrease in the cash flow used in inventory from PLN 51.4 million during the nine months ended 30 September 2009 to a cash inflow from inventory amounting to PLN 88.8 million during the nine months ended 30 September 2010.

The increase in the net cash inflow from operating activities is reduced by (1) a decrease in the cash flow used in trade and other payables and accrued expense from a cash inflow of PLN 7.9 million during the nine months ended 30 September 2009 to a cash outflow of PLN 10.8 million during the nine months ended 30 September 2010 and (2) a decrease in the cash flows from advances received from a cash inflow of PLN 12.8 million during the nine months ended 30 September 2009 to a cash outflow of PLN 4.0 million during the nine months ended 30 September 2010 .

Cash flows used in financing activities totaled PLN 65.9 million during the nine months ended 30 September 2010, as compared to cash flows from financing activities totaled PLN 1.8 million in the nine months ended 30 September 2009. The increase is principally due to:

- proceeds from secured bank loans amounting PLN 3.1 million during the nine months ended 30 September 2010 compared to PLN 17.8 million during the nine months ended 30 September 2009;
- a repayment of secured bank loans amounting to PLN 69.0 million during the nine months ended 30 September 2010 compared to PLN 15.9 million during the nine months ended 30 September 2009.

E. Main risks and uncertainties during the remainder of 2010

The economic situation in Europe, and in Poland, and the uncertainties in the housing market make it very difficult to pronounce a concrete estimate of the result for the remainder of 2010 and for 2011. The state of the Polish economy, the banking industry and the consumers' interest in new housing projects are considered to be the most significant uncertainties for the remainder of the financial year.

Additional information to the report (cont'd)

Changes in ownership of shares and rights to shares by Supervisory Board members in the nine months ended 30 September 2010 and until the date of publication of the report

The members of the Supervisory Board did not individually own any shares and/or rights to shares in the Company during the period from 1 January 2010 until 9 November 2010, with the exception of Mr Uri Dori who indirectly holds 31.4% of the shares and voting rights in a 50% shareholder of I.T.R Dori B.V. and, as a result, thus indirectly holds a 10.1% interest in the Company. Mr Dori's indirect ownership in the Company did not change during the period from 1 January 2010 until 9 November 2010.

Other

As of 30 September 2010, the Company has issued guarantees for bank loans granted to subsidiaries amounting to a total of PLN 37,193 thousand.

As of 30 September 2010, the Group had no litigations for claims or liabilities that in total would exceed 10% of the Group's equity.

The following net movements in the Group's main provisions took place during the nine months ended 30 September 2010:

- an increase in the provision for deferred tax liabilities of PLN 782 thousand (an increase of PLN 1,658 thousand during the nine months ended 30 September 2009).
- an increase in the provision for tax liabilities for tax control of PLN 17 thousand (a decrease of PLN 100 thousand during the nine month ended 30 September 2009).

During the nine months ended 30 September 2010 the Group made write-down for project under construction, Gardenia project, in the amount of PLN 1,866 thousand (nil during the nine months ended 30 September 2009).

Aurora

In May 2009, the Company entered into a settlement agreement with the seller of a land plot in Poznań (project Aurora), which concluded the dispute between the parties that started in September 2008. The seller has confirmed that the original agreement related to acquisition of land has expired and has committed to pay back the advance payment (PLN 12.4 million) upon satisfaction of certain conditions. While the Company decided to enter into this compromise agreement despite the fact that the Management Board was confident about the Company's ultimate success in any court proceeding. The Management Board was of the opinion that entering into a court proceeding would nonetheless be long, expensive and complicated. Based on the compromise agreement reached, the parties agreed to a reduction of the repayment to a final settlement of PLN 9.0 million (plus statutory interest accrued since 1 August 2009 on the unpaid amount) if repaid by end of April 2010. Notwithstanding the said compromise agreement, the Management of the Company has assessed chances of the Seller to arrange relevant financial resources and to finalize the settlement within agreed timeframe as unlikely and decided to not proceed with any write-off.

On 30 April 2010, the seller repaid the full PLN 9.0 million plus PLN 0.9 million of interest after which all settlements between the Company and the seller were cleared. As a result of the above described settlement, the Company recognized a write-down expense for the abandoned project to the amount of PLN 2.5 million. This write-down expense is included in the Interim Condensed Consolidated Statement of Comprehensive Income in "Other expenses".

Directors' report

Additional information to the report (cont'd)***Responsibility statement***

The Management Board confirms that, to the best of its knowledge, these Interim Condensed Consolidated Financial Statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”), in particular in accordance with IAS 34 and IFRSs endorsed by the European Union. At the date of authorisation of these Interim Condensed Consolidated Financial Statements, in light of the current process of IFRS endorsement in the European Union and the nature of the Group’s activities, there is no difference between the IFRSs applied by the Group and the IFRSs endorsed by the European Union. Interim Condensed Consolidated Financial Statements for the nine months ended 30 September 2010

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**Note 1 – General and principal activities**

Ronson Europe N.V. (hereinafter “the Company”), a Dutch public company with its registered office located in Rotterdam, the Netherlands, was incorporated on 18 September 2007. The Company (together with its Polish subsidiaries, hereinafter “the Group”) is active in the development and sale of residential units, primarily apartments, in multi-family residential real-estate projects and single family or semi-detached housing projects to individual customers in Poland.

The shares of the Company are traded on the Warsaw Stock Exchange since 5 November 2007. As at 30 September 2010, 64.2% of the outstanding shares are held by I.T.R. Dori B.V. (‘ITR Dori’), 15.3% of the outstanding shares are held by GE Real Estate CE Residential B.V. (‘GE Real Estate’) whereas the remaining 20.5% of the outstanding shares are held by other investors including Amplico Otwarty Fundusz Emerytalny and ING Otwarty Fundusz Emerytalny each holding between 5% and 10% of the outstanding shares.

The Interim Condensed Consolidated Financial Statements of the Group have been prepared for the nine months and the three months ended 30 September 2010 and contain comparative data for the nine months and the three months ended 30 September 2009 and as at 31 December 2009. The Interim Condensed Consolidated Financial Statements of the Company for the nine months and the three months ended 30 September 2009 comprise the Company and its subsidiaries, and have not been subject to review or audit by an independent auditor.

A list of the companies from which the financial data are included in these Interim Condensed Consolidated Financial Statements and the extent of ownership and control are presented in Note 7.

The Interim Condensed Consolidated Financial Statements for the nine months ended 30 September 2010 were authorised for issuance by the Management Board on 9 November 2010.

Note 2 – Basis of preparation of Interim Condensed Consolidated Financial Statements

These Interim Condensed Consolidated Financial Statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”), in particular in accordance with IAS 34 and IFRSs endorsed by the European Union. At the date of authorisation of these Interim Condensed Consolidated Interim Financial Statements, in light of the current process of IFRS endorsement in the European Union and the nature of the Group’s activities, there is no difference between the IFRSs applied by the Group and the IFRSs endorsed by the European Union. IFRSs comprise standards and interpretations accepted by the International Accounting Standards Board (“IASB”) and the International Financial Reporting Interpretations Committee (“IFRIC”).

The Interim Condensed Consolidated Financial Statements do not include all the information and disclosures required in annual consolidated financial statements, and should be read in conjunction with the Group’s annual consolidated financial statements as at 31 December 2009.

Interim Condensed Consolidated Financial Statements for the nine months ended 30 September 2010

Note 2 – Basis of preparation of Interim Condensed Consolidated Financial Statements (cont'd)

The Consolidated Financial Statements of the Group for the year ended 31 December 2009 are available upon request from the Company's registered office at Weena 210-212, 3012 NJ Rotterdam, the Netherlands or at the Company's website: www.ronson.pl

These Interim Condensed Consolidated Financial Statements have been prepared based on the assumption that the Group companies will continue as going concern in the foreseeable future. As at the date of authorisation of these Interim Condensed Consolidated Financial Statements, the Company's Management Board is not aware of any facts or circumstances that would indicate a threat to the continued activity of the Group. A separate comment shall be made regarding the maturity structure of the Company's loan facilities, which in majority, are classified as short-term debt. The structure of the debt financing reflects the Company's past transactions involving leveraged land acquisitions and the current practice by the banking sector assuming extension of the maturity of land backed loans for the period of up to 12-18 months only. The Management of the Company is confident about the value of the land which is used as the collateral for the loan facilities as well as about a continued cooperation by the banks and the Company's ability to service its loan obligations in an orderly fashion. Until now, the Company has not breached any loan covenant, which would expose the Company for risk of obligatory and immediate repayment of any loan and has been able to extend all expiring loan facilities.

Note 3 – Summary of significant accounting policies

The accounting policies adopted in the preparation of the Interim Condensed Consolidated Financial Statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2009, except for the adoption of the following new or amended Standards and Interpretations applicable to annual reporting periods beginning on or after 1 January 2010 as noted below:

- IFRS 2 *Share-based payment: Group Cash-settled Share-based Payment Transactions* – applicable to annual reporting periods beginning on or after 1 January 2010. The standard has been amended to clarify the accounting for group cash-settled share-based payment transactions. This amendment supersedes IFRIC 8 and IFRIC 11. The adoption of this amendment did not have any impact on the financial position or performance of the Group.
- IFRS 3 *Business Combinations (revised)* and IAS 27 *Consolidated and Separate Financial Statements (amended)* – applicable to annual reporting periods beginning on or after 1 July 2009. IFRS 3 (revised) introduces significant changes in the accounting for business combinations occurring after this date. Changes affect the valuation of non-controlling interest, the accounting for transaction costs, the initial recognition and subsequent measurement of a contingent consideration, and business combinations achieved in stages. The adoption of this amendment did not have any impact on the financial position or performance of the Group.
- IAS 27 (amended) requires that a change in the ownership interest of a subsidiary (without loss of control) is accounted for as a transaction with owners in their capacity as owners. Therefore, such transactions will no longer give rise to goodwill nor will it give rise to a gain or loss. Furthermore, the amended standard changes the accounting for losses incurred by the subsidiary as well as the loss of control of a subsidiary. The adoption of this amendment did not have any impact on the financial position or performance of the Group.
- IAS 39 *Financial Instruments: Recognition and Measurement: Eligible Hedged Items* – applicable to annual reporting periods beginning on or after 1 July 2009. The amendment addresses the designation of a one-sided risk in a hedged item, and the designation of inflation as a hedged risk or portion in particular situations. The adoption of this amendment did not have an impact on the financial position or performance of the Group.

Interim Condensed Consolidated Financial Statements for the nine months ended 30 September 2010

Note 3 – Summary of significant accounting policies (cont'd)

- IFRIC 17 *Distribution of Non-cash Assets to Owners* – applicable to annual reporting periods beginning on or after 1 July 2009. This interpretation provides guidance on accounting for arrangements whereby an entity distributes non-cash assets to shareholders either as a distribution of reserves or as dividends. The interpretation did not have any effect on the financial position or performance of the Group
- Improvements to IFRSs (issued May 2008) – in May 2008 The Board issued its first omnibus of amendments to its standards. The Company has implemented the following amendments from 1 January 2010:
 - IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations*: clarifies when a subsidiary is classified as held for sale, all its assets and liabilities are classified as held for sale, even when the entity remains a non-controlling interest after the sale transaction. The amendment is applied prospectively and did not have any impact on the financial position or performance of the Group.
- Improvements to IFRSs (issued April 2009) – in April 2009 the Board issued its second omnibus of amendments to its standards, primarily with a view to removing inconsistencies and clarifying wording. There are separate transitional provisions for each standard.
 - IAS 39 *Financial Instruments: Recognition and Measurement*: The amendment clarifies that a prepayment option is considered closely related to the host contract when the exercise price of a prepayment option reimburses the lender up to the approximate present value of lost interest for the remaining term of the host contract. The amendment clarifies that the scope exemption for contracts between an acquirer and a vendor in a business combination to buy or sell an acquire at future date, applies only to binding forward contracts, and not derivative contracts where further actions by either party are still to be taken. The amendment did not have any effect on the financial position or performance of the Group.

The changes in the following standards did not have any impact on the accounting policies, the financial position or performance of the Company:

- IFRS 2 *Share-based Payment*
- IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations*
- IFRS 8 *Operating segments*
- IAS 36 *Impairment of Assets*
- IAS 7 *Statement of cash-flows*
- IAS 1 *Presentation of Financial Statements*
- IAS 17 *Leases*
- IAS 38 *Intangible Assets*
- IFRIC 9 *Reassessment of Embedded Derivatives*
- IFRIC 16 *Hedge of a Net Investment in a Foreign Operation*

The Group has not early adopted any other standard, interpretation or amendment that was issued but is not yet effective.

Interim Condensed Consolidated Financial Statements for the nine months ended 30 September 2010

Note 4 – The use of estimates and judgments

The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of income and expenses during the reporting period. Actual results may differ from these estimates.

In preparing these Interim Condensed Consolidated Financial Statements, the significant judgements made by the Management Board in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those applied to the consolidated financial statements for the year ended 31 December 2009 that were presented in Note 2(d) of the consolidated financial statements for the year ended 31 December 2009.

Note 5 – Functional and reporting currency

Items included in the financial statements of each entity in the Group are measured using the currency of the primary economic environment in which the entity operates (the 'functional currency') being Polish Zloty ('PLN'). The Consolidated Financial Statements are presented in thousands of Polish Zloty which is the parent company functional and presentation currency. Although the Company is a Dutch company, it operates mainly in Poland.

Note 6 – Seasonality

The Group's activities are not of a seasonal nature. Therefore, the results presented by the Group do not fluctuate significantly during the year due to seasonality.

Note 7 – Composition of the Group

The Polish companies whose financial data have been included in these Interim Condensed Consolidated Financial Statements, the year of their incorporation and the percentage of ownership and voting rights directly and indirectly held by the Company as at 30 September 2010 in each entity are presented below.

According to the decision of the Company's Management Board, the real estate projects shall be contributed in-kind in form of enterprises to newly created subsidiaries. The transfer of the enterprise enables the new subsidiary to cut itself off from the past and refresh its image.

The projects managed by the companies are in various stages of development ranging from being in the process of acquiring land for development to projects which are completed or near completion.

Note 8 - Segment reporting

The Group's operating segments are defined as separate entities developing particular residential projects, which for the reporting purposes were aggregated. The aggregation for reporting purpose is based on geographical locations (Warsaw, Poznań, Wrocław and Szczecin) and type of activity (development of apartments and development of houses). Moreover, for one particular entity the reporting was based on type of income: rental income from investment property.

According to the Management Board's assessment, the operating segments identified have similar economic characteristics. Aggregation based on the type of development within the geographical location has been applied since primarily the location and the type of development determine the average margin that can be realized on each project and the project's risk factors. Considering the fact that the production process for apartments is different from that for houses and considering the fact that the characteristics of customers buying apartments slightly differ from those of customers interested in buying houses, aggregation by type of development within the geographical location has been used for segment reporting and disclosure purposes.

Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated indirectly based on reasonable criteria. Unallocated items comprise head office expenses and income tax assets and liabilities and unallocated cash and cash equivalents.

Data presented in the table below are aggregated by type of development within the geographical location:

Interim Condensed Consolidated Financial Statements for the nine months ended 30 September 2010**Note 13 – Share-based payments**

During the fourth quarter of 2007, a long-term incentive plan (the “Plan”) was implemented. The persons eligible for participation in the Plan are the employees of the Group, including the members of the Management Board. Under the Plan, share options are granted to members of the Management Board and selected employees. The exercise price of the granted options is determined by the Supervisory Board on the date of granting the share options and shall not be less than the fair market value at the time of the grant of the options. Options are conditional on the employee being employed or Board members being in office at the time the options are exercisable (vesting period) and can only be settled in shares. Options granted shall vest over three and five years, one third and one fifth in each year after one year from the date of grant, respectively.

On 5 November 2007, a total of 1,900,000 options with an exercise price of PLN 5.75 per share were granted to selected employees of the Company. Of the above total, 700,000 options will vest over a three year period having an option term of five years, whereas the remaining 1,200,000 options will vest over five years having an option term of seven years. The latter options were granted to Mr. Dror Kerem, the former President of the Management Board and the former Chief Executive Officer of the Company.

Until 30 September 2010, the selected employees that joined the option programme (granted in 2007) had not exercised any of their options. Following the resignation of key management employees during 2008 and during 2009, a total of 1,260,667 options ceased to exist. The details regarding the number of the options outstanding as of 30 September 2010 are provided below:

Vesting dates	Number of options			Outstanding
	Granted	Exercised	Ceased to exist	
5 November 2008	473,333	-	(50,000)	423,333
5 November 2009	473,333	-	(317,333)	156,000
5 November 2010	473,334	-	(413,334)	60,000
5 November 2011	240,000	-	(240,000)	-
5 November 2012	240,000	-	(240,000)	-
Total	1,900,000	-	(1,260,667)	639,333

The weighted average fair value of options granted in 2007 using the Black-Scholes valuation model was approximately PLN 2.75 per option. The significant inputs into the model were a weighted average share price of PLN 5.75 at the grant date, the exercise price mentioned above, volatility of 50%, dividend yield of 0%, an option life of five years and seven years, an annual risk free rate of 6% and estimation that 70% from the employed will implement the options.

The cost impact of the share-based payment on the financial statements of the Company was an expense of PLN 39 thousand for nine months ended 30 September 2010 (nine months ended 30 September 2009: PLN 54 thousand) recognized in the statement of comprehensive income with a corresponding increase in equity.

Note 17 – Events during the period***Bank loans***

The Company has signed an annex extending the maturity of a loan facility (PLN 14.7 million) which was used for refinancing of the land purchase in respect of the Verdis project (previously named Orion). The final repayment date has been postponed until June 2012. The Company also entered into a construction loan facility for this project for an amount up to PLN 24.5 million.

The Company has also secured financing for construction costs in respect of the Impressio project (previously named Goya) in Wrocław, by entering into a loan facility agreement for an amount up to PLN 9.3 million.

The Company has signed an annex extending the maturity of a loan facility (PLN 14.7 million) which was used for the refinancing of the land purchase in respect of the Magellan project. The final repayment date has been postponed until December 2012.

Moreover, the Company is involved in discussions regarding a further extension of the land loan supporting the project at Kłobucka Street in Warsaw (Sakura) as well as regarding the conditions of a new loan for the purpose of financing the construction expenditure of this project. The conditions of both loans have been already been approved by the credit committee of the relevant bank.

Interim Condensed Consolidated Financial Statements for the nine months ended 30 September 2010

Note 17 – Events during the period (cont'd)***Bank loans (cont'd)***

In May 2010, the Company entered into annexes to certain loan facilities agreed in the past with BZWBK S.A. for financing land acquisitions for a total amount of PLN 57.4 million. Based on the signed annexes, the repayment dates of these loans have been extended from 31 March 2010 to 31 March 2011.

The Company repaid the loans used for the Constans, Imaginarium, Galileo, Copernicus and Gemini projects thereby reducing its banking debt by PLN 69.0 million in total.

Aurora

In May 2009, the Company entered into a settlement agreement with the seller of a land plot in Poznań (project Aurora), which concluded the dispute between parties that started in September 2008. The seller has confirmed that the original agreement related to acquisition of land has expired and has committed to pay back the advance payment (PLN 12.4 million) upon satisfaction of certain conditions. While the Company decided to enter into this compromise agreement despite the fact that the Management Board was confident about the Company's ultimate success in any court proceeding. The Management Board was of the opinion that a court proceeding would nonetheless be long, expensive and complicated. Based on the compromise agreement reached, the parties agreed to a reduction of the repayment to a final settlement of PLN 9.0 million (plus statutory interest accrued since 1 August 2009 on the unpaid amount) if repaid by the end of April 2010. Notwithstanding the said compromise agreement, the Management of the Company has assessed chances of the Seller to arrange relevant financial resources and to finalize the settlement within agreed timeframe as unlikely and decided to not proceed with any write-off.

At 30 April 2010, the seller repaid the full PLN 9.0 million plus PLN 0.9 million of interest, after which all settlements between the Company and the seller were cleared. As a result of the settlement, the Company recognized a write-down expense for the abandoned project amounting to PLN 2.5 million which is included in the Interim Consolidated Statement of Comprehensive Income under "Other expenses".

Projects completed

In June 2010, the Company completed the construction of the Gemini project comprising 164 units with a total area of 13,200 m². From this completed project, 8 units with a total area of 869 m² were transferred to property and equipment.

In June 2010, the Company completed the construction of the Nautica project comprising 149 units with a total area of 10,600 m².

In July 2010, the Company completed the construction of the first phase of the Constans housing project that comprising 8 semi-detached units (total 16 units) with an aggregate floor space of 4,471 m².
